This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 57-73, 82-105, drawn to a combination of ingredients for use in the formulation of retroreflective ink and a method of making.

Group II, claim(s) 74-81, drawn to a composition of microbeads.

Group III, claim(s) 106-113, drawn to printed fabric.

The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The claims of Group I require a binder which is not required in Groups II and III. The claims of Group II do not require a binder but require a particular coating which is not required in Groups I and III. Group III requires that the substrate is a fabric which is not required in Groups II and III.
